with VET trainers involved in SSE field at international level"
Bergamo, October 18th 2019

Training pact

We are here, people of different places, gender and generations
to live training as a way to grow together with others
and to give new shape to our actions.

We believe that the interaction between SSE and VET can contribute to make
the transition to more human economies
through the capability of each one.

Each of us and we all together are engaged in these days
to find common vocabulary, knowledge, analysing realities and innovative experiences
but first - and while we do this - we want live positive relationships
of active listening and exchange between us,
based on mutual respect and respect for common rules.

The experience and knowledge of each one can become the experience and knowledge of all.

In the same way we all can look at, understand and welcome
limits and differences of each one
as a training community in which
"no one educates anyone, because we all educate ourselves in the community"
(Freire P., 1970)

To all trainers and all trainees,
good work for all of us!

I agree

the vocational training towards a sustainable local development"

Como, gennaio-marzo 2020

Patto formativo

Siamo qui, persone di luoghi, generi e generazioni diverse
per vivere la formazione come un modo per crescere
insieme agli altri
e per dare nuova forma alle nostre azioni.
Crediamo che l'interazione tra ESS e leFP
- attraverso le capacità di ciascuno -
possa contribuire a costruire
la transizione verso economie più umane.
Ognuno di noi e noi tutti insieme siamo impegnati in
questi giorni
a trovare un vocabolario comune, elementi di conoscenza,
analisi di realtà ed esperienze innovative
e, mentre lo facciamo, vogliamo vivere relazioni positive
di ascolto attivo e di scambio tra di noi,
basate sul rispetto reciproco e sul rispetto delle regole
comuni.
L'esperienza e la conoscenza di ciascuno
può diventare l'esperienza e la conoscenza di tutti.
Allo stesso modo tutti possiamo osservare, comprendere e
accogliere
limiti e differenze di ciascuno
e diventare una comunità formativa in cui
"nessuno educa nessuno, perché tutti noi ci educiamo
nella comunità".
(Freire P., 1970)

Buon lavoro a tutti noi!
