

## **Reformulation of objectives and tools, starting from O2 proposal**

### **OBJECTIVES**

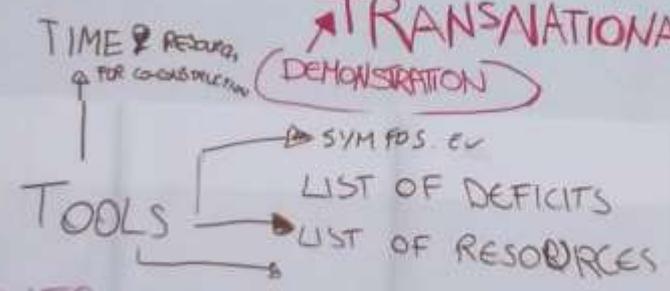

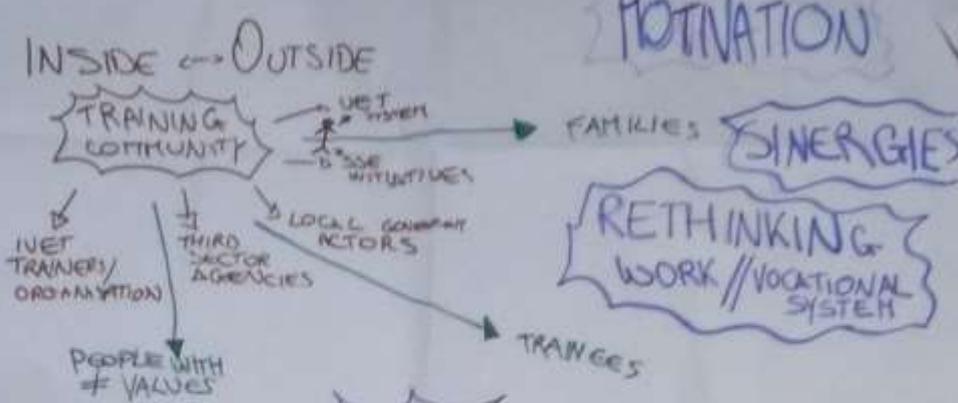

- Identify how (actions) the VET system can integrate SSE contributes and how SSE (contents and approaches) can strengths VET development
- Warrant the participation as serious and fundamental experience (commitment in taking position, responsibility, co-working) also in the classrooms!
- Build a training community to build community in our experimentation areas

### **TOOLS AND METHODOLOGIES**

- Prepare each step
- Map of the experimentation area before the training starts
- Fix the objectives
- Define the outcomes → presentation in the classroom and preparation of didactical materials
- Field visit knowing in advance the reality
- Important: start from the experience of participants (use their experience as case studies)
- Consider the action research methodology as a transversal content of our training

# ACTORS

# INVOLVEMENT CRITERIA

- TRAINER ROLE
- FACILITATION
  - BUILD GOOD RELATIONSHIPS
  - AT LEAST MINIMUM SSE KNOWLEDGE
  - BALANCE, GOING BACK TO → MORE ORGANISATIONS
  - NO COMPETITOR
  - LISTEN
